

Clemens Bears Talented Design Team -

Our designer teddy bears have been dreamed up and brought to life by a team of renowned designers in Germany. They are only made in limited numbers - and they do sell out. These are much sought by children, adults and collectors the world over. Learn a little about the creative minds behind these special bears.

Anna Dazumal

Anna created her first teddy bear in 1992, and since 2001 Anna has been making bears and collector animals in the style of the "good old days". A lot of love goes into each and every creature she produces. Anna has earned many awards for her work.

Jack & Marion Finhold

The unmistakable Finhold bears have been designed for Clemens since 2004. The Finholds find endless joy in the process of imaginative design, having devoted more than 20 years to their craft.

Martina Lehr

Martina has been designing bears since 1995 under the motto "as made for you". Martina's bears are lovingly created showing many little details that are innately human and highly collectable.

Eleonore Unkel Schäufelin

Eleonore has been designing bears since 1993, and has been a member of the Clemens designer team since 2004. The new game animal collection was designed exclusively for Clemens by Eleonore.

Angelika Gelibären

Angelika has been creating bears since 1995. Her love of bears began as a single gift, and has now developed into a great life passion! Angelika draws inspirations from many sources, and her favourites include the old traditional, the casual biker and happy gardener bears.

Katya Bepalova

Katya has a background of working with children, and what she liked most about all children was that they are very open, sincere and natural. When Katya started designing bears she wanted to endow her bears with the same qualities. Katya considers all her toys to be children to some extent, and it is very important to her that her bears look as if they are 'alive' - even if they don't look like real bears. Katya's slogan is, "Feel with your soul!" When she is making a toy she gives a small part of her soul to it, and that is what she wants the bear owners to feel.

Solvita Baudele

Solvita has been crafting bears since 2008, and believes that there is something about a Teddy Bear that is quite impossible to explain. Solvita says, "When you hold one in your arms, you get a feeling of love, comfort and home. A home without a Teddy Bear is just a house".
